

Shubham Gupta

Cloud Engineer

Frankfurt, Germany | guptashubham131@gmail.com | +49 1575 5754701

Experience

Senior Cloud Engineer, Tech Mahindra Pvt. Ltd. – Muscat, Oman & India July 2023 – Sept 2025

- Designed and managed Azure infrastructure (VNets, NSGs, Load Balancers, AKS) serving 50+ microservices.
- Led migration of on-premise infrastructure to Azure with Terraform.
- Configured private endpoints, VPN gateways, and NSG rules to secure backend traffic.
- Set up Azure Monitor and Application Insights dashboards and alerts.
- Implemented automated scaling policies for AKS workloads.
- Optimized cloud costs through right-sizing and automated shutdown of non-production environments.
- Managed Azure AD RBAC and OAuth 2.0 policies across subscriptions.

Cloud Engineer, SSG Consulting Pvt. Ltd. (Rencata) – Chennai, India July 2020 – June 2023

- Provisioned Azure infrastructure for financial services with Terraform, including VNets, NSGs, and storage accounts.
- Deployed and managed AKS clusters hosting 100+ microservices.
- Configured network peering and load balancing for high-availability services.
- Built cost monitoring with Azure Cost Management and tagging policies, reducing monthly spend.

Cloud Engineer, Accenture PLC – India Apr 2019 – Sept 2019

- Managed Azure compute, networking, and storage with Terraform and ARM templates.
- Configured Azure Monitor and Log Analytics for centralized logging.
- Implemented NSG and firewall rules to segment network traffic.

Cloud Engineer, Tech Mahindra Pvt. Ltd. – India Dec 2016 – Apr 2019

- Migrated on-premise infrastructure to Azure with Terraform, cutting provisioning from days to under an hour.
- Configured virtual networks, subnets, and VPN connections linking cloud to on-premise data centers.
- Managed Linux VMs and storage accounts with backup and disaster recovery policies.

Education

RGPV, Bhopal, India, Bachelor of Engineering (B.E.) 2012 – 2016

Skills

Cloud & Infrastructure: Azure, GCP, Terraform, Docker, Kubernetes

DevOps & Automation: CI/CD, Azure DevOps, Python, Linux, Git, Monitoring
