

Shubham Gupta

Infrastructure Engineer

Frankfurt, Germany | guptashubham131@gmail.com | +49 1575 5754701

Experience

Senior Infrastructure Engineer, Tech Mahindra Pvt. Ltd. – Muscat, Oman & India July 2023 – Sept 2025

- Managed Linux production servers and Azure infrastructure for enterprise platforms.
- Automated server provisioning with Terraform, removing manual setup across dev, staging, and prod.
- Configured network security with NSGs, VPNs, and private endpoints.
- Handled on-call incidents with root cause analysis and post-mortems.
- Built preventive automation that stopped recurring outages.
- Managed backups and disaster recovery across Azure regions.
- Wrote Python and Bash scripts that cut daily manual ops work by half.

Infrastructure Engineer, SSG Consulting Pvt. Ltd. (Rencata) – Chennai, India July 2020 – June 2023

- Managed Linux servers for financial services, handling patching, scaling, and hardening.
- Built VNets, load balancers, and firewalls with Terraform.
- Automated daily tasks with Python and Bash to reduce human errors.
- Set up Prometheus and Grafana monitoring for early issue detection.

Infrastructure Engineer, Accenture PLC – India Apr 2019 – Sept 2019

- Provisioned Azure compute and networking with Terraform and ARM templates.
- Maintained Linux servers with automated backup and recovery.

Infrastructure Engineer, Tech Mahindra Pvt. Ltd. – India Dec 2016 – Apr 2019

- Migrated on-premise infrastructure to Azure, cutting provisioning from days to minutes.
- Managed Linux production servers with automated failover and health monitoring.
- Configured VPN connections linking cloud resources to on-premise systems.
