

Shubham Gupta

Senior DevOps Engineer

Frankfurt, Germany | guptashubham131@gmail.com | +49 1575 5754701

Experience

Senior DevOps Engineer, Tech Mahindra Pvt. Ltd. – Muscat, Oman & India July 2023 – Sept 2025

- Owned CI/CD pipelines on Azure DevOps and Jenkins for 50+ microservices.
- Debugged failing builds and unblocked production releases.
- Provisioned Azure infrastructure (VMs, VNets, AKS) with Terraform modules.
- Operated Kubernetes clusters in production, scaling pods and rolling out updates.
- Handled on-call rotations, diagnosing incidents and pushing permanent fixes.
- Configured Azure Monitor and Application Insights alerts for uptime tracking.
- Managed Azure AD access, OAuth 2.0 flows, and NSG rules across environments.
- Wrote Python and Bash automation that cut manual ops work by ~60%.

DevOps Engineer, SSG Consulting Pvt. Ltd. (Rencata) – Chennai, India July 2020 – June 2023

- Built CI/CD pipeline templates reused across 100+ microservices at a financial services firm.
- Packaged services with Helm charts and managed releases across dev, staging, and prod.
- Deployed Prometheus and Grafana from scratch, cutting incident detection to under 5 minutes.
- Rotated secrets and certificates through Azure Key Vault.

DevOps Engineer, Accenture PLC – India Apr 2019 – Sept 2019

- Containerized legacy applications with Docker and moved them to Kubernetes.
- Set up Azure compute, networking, and storage with Terraform and ARM templates.
- Added automated rollback to Jenkins pipelines to cut recovery time after failed deployments.

DevOps Engineer, Tech Mahindra Pvt. Ltd. – India Dec 2016 – Apr 2019

- Migrated on-premise workloads to Azure, cutting environment setup from days to under an hour.
- Managed Linux production servers with automated patching and failover.
- Standardized server configuration with Bash scripts, eliminating manual setup errors.

Education

RGPV, Bhopal, India, Bachelor of Engineering (B.E.) 2012 – 2016
