

Shubham Gupta

Platform Engineer

Frankfurt, Germany | guptashubham131@gmail.com | +49 1575 5754701

Experience

Senior Platform Engineer, Tech Mahindra Pvt. Ltd. – Muscat, Oman & India July 2023 – Sept 2025

- Managed a Kubernetes platform used by 50+ engineering teams for daily microservice deployments.
- Built reusable Terraform modules that cut infrastructure setup from days to minutes.
- Debugged failed deployments and pod crashes across dev and production clusters.
- Rolled out cluster updates and scaling changes with zero downtime.
- Configured Azure Monitor and Prometheus alerts to catch issues before users reported them.
- Automated repetitive ops tasks with Python and Bash, cutting manual work by about half.
- Managed secrets and access control through Azure Key Vault and RBAC.

Platform Engineer, SSG Consulting Pvt. Ltd. (Rencata) – Chennai, India July 2020 – June 2023

- Built a deployment platform for financial services handling 100+ microservices.
- Created standardized Terraform and K8s templates for common service patterns.
- Managed credential rotation in Azure Key Vault across all environments.
- Wrote onboarding docs and runbooks for developers joining the platform.

Platform Engineer, Accenture PLC – India Apr 2019 – Sept 2019

- Maintained platform infrastructure for enterprise integration systems.
- Standardized deployment patterns used across multiple teams.
- Configured platform-level rate limiting and error handling.

Platform Engineer, Tech Mahindra Pvt. Ltd. – India Dec 2016 – Apr 2019

- Migrated legacy systems to a modern platform architecture.
- Built reusable deployment components adopted by multiple teams.
- Created standardized logging and error handling for distributed services.

Education

RGPV, Bhopal, India, Bachelor of Engineering (B.E.) 2012 – 2016

Skills

Cloud & Infrastructure: Azure, GCP, Terraform, Docker, Kubernetes

DevOps & Automation: CI/CD, Azure DevOps, Python, Linux, Git, Monitoring
